

THE GENDER PAY REPORT 2022 GAP

Introduction

The transparency and accountability that gender pay gap reporting brings is crucial in driving greater equality in the workplace. We continued to build on the progress made in previous years and outline what action we are taking to close the gender pay gap that exists in Eurovia Infrastructure Limited.

To achieve our goal of a genuinely diverse and inclusive workplace we promote everyday inclusion – the behaviours that we can demonstrate every day to help to ensure everybody feels respected, valued and able to contribute. This will continue to create a culture where all of our colleagues can be themselves and feel empowered to succeed; this is critical if we are to attract and retain the best talent and deliver a successful business.

The data in this report is reflective of a moment in time, specifically a snap shot date of the 5th April 2022. We acknowledge that there is still much more work to be done and our journey continues.

What is The Gender Pay Gap at Eurovia Infrastructure Limited

The gender pay gap shows the difference in average pay between women and men. This is different to equal pay i.e. women and men receiving the same pay for the same role.

The gender pay gap takes into account all roles at all levels of the organisation, rather than comparing pay received by women and

men performing the same roles. We regularly review and analyse our employee pay to ensure men and women are treated equally when performing the same role. We are therefore confident that we do not have equal pay issues. Instead, our gender pay and bonus gaps reflect our organisational structure.

These calculations are not perfect, because different jobs pay differently and the number of men and women performing these jobs varies, this is why a gender pay gap exists. However, these calculations are an indication of inequalities in areas such as access to work, progression and rewards, essentially who works in which job.

How have these numbers changed since the 2021 statistics?

We have seen improvements in most of the gender pay and bonus gaps for Eurovia Infrastructure Limited in 2022.

Positively, there has been a further reduction of 2.76% in the mean gender pay gap, demonstrating that our gender pay gap has once again reduced in 2022.

Six years ago, our mean gender pay gap was reported as 11.20%, and in 2022 it sat at 6.74% a reduction of 4.46% overall.

Our gender pay and bonus gaps reflect our organisational structure. We have proportionately more women employed in lower skilled roles such as administrative and clerical roles, where pay is lower, and proportionately more men in our higher skilled roles and senior leadership roles, such as Operations Managers and Contracts Managers.

Our data should be taken in context, as it has historically been more common for more men than women to be employed in the contracting and production industry, or to apply to work there.

Within our business more than 80% of employees in every Pay Quartile are men and it is therefore more difficult to make a direct comparison of gender pay within any Quartile.

Our 2022 median pay gap is -0.67%, which means that when comparing median gender pay, women's gender pay was higher than men's, although this reflects just a 10p difference between the median men's hour rate of £14.93 and the women's median hourly rate of £15.03.

Whilst there is a mean bonus pay gap of 39.11% and a median bonus pay gap of 26.24%, an additional 2.40% of women received bonus pay in 2022 (8.00% of women in 2022, compared to 5.60% of women in 2021).

TAKING ACTION

WHAT WE ACHIEVED IN 2022...

WHAT 2023 WILL BRING...

Tackling the Gap from the Top

As a leadership team, we are pleased that elements of our gender pay gap figures continue to move in the right direction, however, we still have much to do to improve gender parity. We need to ensure more opportunities exist for female talent to join Eurovia Infrastructure Limited in the UK and to have a fulfilled sustainable career with us.

At Eurovia Infrastructure Limited in the UK we know that a diverse team creates a stronger, more dynamic business, which makes us a more attractive and sustainable employer. We want to create an environment where everyone feels like they belong, can be themselves and know their voice will be heard. This is not something that can be easily achieved within a single reporting cycle, but we are committed to long-term sustainable change.

We want to make sure that everyone at Eurovia Infrastructure Limited in the UK feels supported to grow, develop and thrive. We also firmly believe that this continued focus starts at the top and therefore our Executive Committee have endorsed this report to demonstrate their shared commitment. .

We are not afraid to challenge our preconceptions of how we work and our established ways of thinking. We see this as critical in enabling us to understand what our customers want and expect from us, and to better represent the communities we serve.

We are also realistic about the challenges we face and the historical composition of the industries we operate in. We are committed to understanding the root causes of issues, finding solutions that are both practical and beneficial to employees and being transparent.
